FACE SHIELD

EPP Face Shields for COVID-19

Clear plastic PETG polyester face guard to protect yourself, staff and others

- Flexible head strap with tabs to adjust fit like a baseball cap
- Shield size is 13" W x 10.5" H (can be customized)
- Supported on forehead with comfortable foam padding
- Lightweight
- Fog-resistant
- Impermeable to germs and chemicals
- Shield can be washed with alcohol, disinfectant or soap and water
- Helps protect the wearer and others from body fluid exposures
- Helps prevent the wearer from touching their face
- Reusable and recyclable
- Made in Canada
- Shipping now across Canada

**Disclaimer:** These shields do offer protection, however, they are not medical grade quality and not intended for use by healthcare professionals. They do not guarantee protection against COVID-19. They have not been tested or certified under any standards. Not to be used by any ‘hot work’ contractors, such as welders. Please use responsibly.

MI5 - EPP PETG – Clear plastic PETG polyester face guard – 11.95 CAD

FACE MASKS

Disposable 3 Layer Mouth/Nose Protection Mask with Ear Loops
• 3 layer protection offers a breathable, high filtration barrier
• One size fits all
• Elastic earloops for tight and comfortable fit
• Built-in nose bridge wire contours for a tighter fit
• Colour: Blue
• Expiry date: 03/2022
• Earloop style: flat knitted earloop

MATERIALS:
• Mask Body: Spun bond polypropylene (SB-PP)
• Nose Piece: Plastic and wire
• Earloop: 3mm latex-free elastic

SVT-11000 – 3 layer protection face mask – 109.50 CAD / box of 50 units

Disclaimer: While a surgical mask may be effective in blocking splashes and large-particle droplets, a face mask, by design, does not filter or block very small particles in the air that may be transmitted by coughs, sneezes, or certain medical procedures. Surgical masks also do not provide complete protection from germs and other contaminants because of the loose fit between the surface of the face mask and your face. Please use responsibly.
This Professional Grade Ozone Blaster Is perfect For Serious Auto Industry Experts and Car Detailers. Includes hose, wand and upholstery attachment perfect for forcing Ozone Gas into the headliner carpeting upholstery fabrics and more. Plenty of gas power and pressure to treat two cars at one time for high volume applications.

**Length - 21" inches, Height - 11 " inches, Width - 11" inches, Weight - 18 lbs. 1 YEAR WARRANTY. INCLUDE 1 foam for cars windows.**

If you’re someone who ends up sweating buckets by the end of the work day, you know for a fact that your car absorbs all of that body odor and locks it in. The Bio3Blaster can kick these car odors straight to the curb, without having to get a professional cleaning done that can break the bank. When it comes to ozone generators, nothing does the job better. For the duration of the cycle, ensure to have a window cracked. You will need to do so either way since you have to have the cord running through. Before running the treatment cycle, turn your air conditioner and your heater on separately. If you can smell an odor coming from your heater, for example, leave it on for the duration of the cycle. This will ensure that no smell goes uncleaned, and that you’ll never have to hold your breath while your air conditioning or heater is on for the duration of your ride ever again. Leave the unit on one of the seats and let it run for a few hours, depending on how severe the odor is. Once the treatment is finished, or you think the job is done, inspect your car to ensure that the odor is really gone for good. If not, run the cycle once more.

**BIO 3 BLASTER (SUPER AUTO SANITIZER ozone generator 40.000 mg/hr) is able to kill in 30 min the bacteria and viruses of 0.5 ppm.**

---

**OXY-SAS 40 - SUPER AUTO SANITIZER ozone generator 40.000 mg/hr – 1,595.00 $ CAD**
DISPOSABLE SEAT COVER, GEAR COVER, STEERING WHEEL COVER

Slip-N-Grip® - MADE IN USA

Keep Vehicles Clean, Keep Customers Coming Back.

Slip-N-Grip® seat covers are manufactured in the USA and are the only interior protection used in both OEM and aftermarket applications.

- Slip-N-Grip® multi-layer technology ensures that the seat cover stays in place throughout the entire service process.
- The bottom layer grips the seat to stay in place while the slick top layer allows easy entry and exit from the vehicle.
- Roll or box available
- Disposable and recyclable
